Subject: Application for .NET Azure Developer Trainee Program

Dear Sir/Madam,

I wish to apply for the graduate trainee position “.NET Azure Developer” at your company, currently listed on Microsoft University Portal. Please find my CV for your consideration.

As you will see from my CV, I am going to complete my 2 years master's degree in Applied Computer and Information Technology, specializing in Universal Design of ICT from Oslo Metropolitan University this summer. Additionally, I completed my 4 years bachelor's degree in Computer Information System from Apex College and took an elective paper in .NET Development in the last year of my undergraduate. I believe the knowledge I have acquired through my course work and the skills I picked up make me a good candidate for this opportunity.

I am interested in this position as it appears directly to my passion for developing a web-based application. Aside from my education, I have experience working as a full-stack web application developer and system administrator in various companies. This provided me with important hands-on experience to work as a foundation to build my career as a software developer. I am confident that my knowledge, skills, passion, and enthusiasm for software development will prove valuable to your organization.

I value your feedback, so let me know what you think.

Sincerely,  
Nayan Adhikari
